StoneVeneer

The real stone veneer with a natural surface

The real stone, which the carpenter can process

StoneVeneer is a creative surface design for the experienced specialist as well as for the talented do-it-yourselfers. The Richter stone veneer product line fits naturally with furniture design/manufacturing, walls, floors, ceilings, retail fixtures, displays and a host of additional applications.

StoneVeneer

Carrier plate either with 18 mm (0.7") MDF with melamine resin coating on the back, or 18 mm (0.7") birch multiplex.

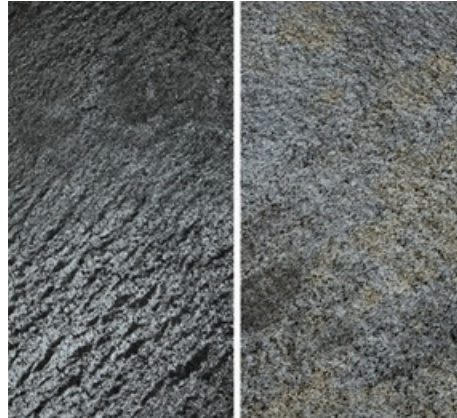

StoneVeneer

Sheet 1-1.5 mm (0.04 to 0.06") with GFK reinforcement on the back. Optional primer for bonding with adhesives.

Black Line

Black Star

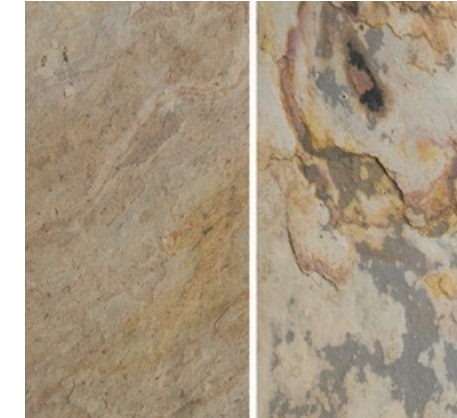

Multi Color

Gold Green

Autumn

Black Line as a wall application

Black Star as furniture front

Multi Color as kitchen front

Gold Green as kitchen front

StoneVeneer Autumn as a wall application

Simple processing

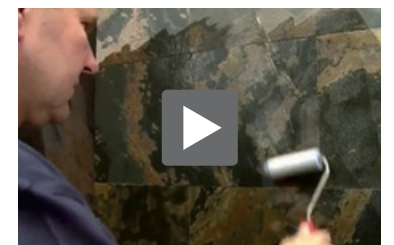

Easily done - creative surfaces with StoneVeneer:

1. Apply adhesive

2. Attach StoneVeneer

3. Seal surface

StoneVeneer

A real piece of nature

With their product StoneVeneer, Richter akustik & design has found a way to combine the positive aspects of real stone with the lightness of other materials for interior design.

StoneVeneer is available in different color tones and surface structures. As it is real stone, from which the material is cut, no piece resembles the other. Each sheet of StoneVeneer is unique in appearance and in its touch.

Easy to process

Easy to process with standard tools by the experienced specialist or do-it-yourselfers

Unlimited possibilities

Timeless design with unlimited possibilities for the manufacture of furniture, for walls, floors and ceilings

Unique and natural colors

The natural colors of StoneVeneer are lightfast and UV resistant. Unique optics with the natural product stone.
